

Titan Cut L.L.C. is completely owned and operated within the US. All of our panels are produced in the United States. Here at Titan Cut L.L.C. we are trying to stimulate the American economy as much as we can. This way our families and coming generations will see many more benefits versus doing business anywhere else in the world.

We specialize in designing, creating and producing laser-cut screens. Purchasing from Titan Cut L.L.C. gives you unlimited options.

YOUR DREAMS ARE OUR  
INSPIRATION, ACHIEVE THEM  
WITH US!

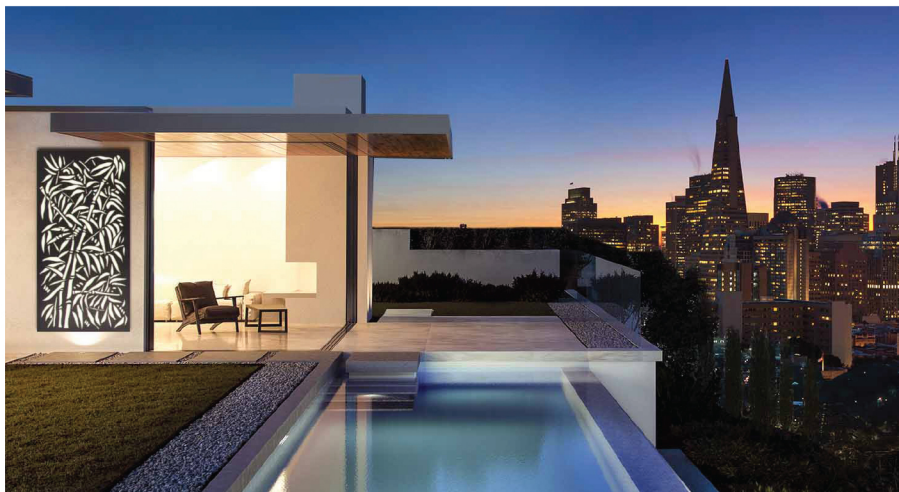

We are a fast growing company and we constantly work on developing, improving and broadening our range of products. All of our production – laser cutting, bending, welding, coating, and assembling is completely conducted in the USA. We use only high-quality materials which, with high-end machines, guarantee strong, lasting and classy laser-cut screens.

**Custom design** - *Our creativity is limitless. Challenge us!*

At Titan Cut L.L.C. we can customize our designs to suit the space you need to fill. Browse through our projects and get inspired by previous custom projects, or alternatively, if you have your own vision, get in touch and we can make it a reality.

- Thickness up to 12 GA (.105")
- The largest overall panel size for Mild Steel, Stainless Steel and Aluminum is 65" x 95"
- The largest overall panel size for Corten is 55" x 95"

**Lighting** - make your design come alive at night. Our durable lighting system adds an instant effect to your design and area.

- Panels without lighting - light colored panels come with dark background and opposite for dark colored panels
- Panels with lighting - choose between 20 predefined programs with automatic and sequential lighting changes or manually select one static color of light.
